

## Table of Contents

### Chapter One: Background Conditions

Introduction .....	1-1
Study Process Overview .....	1-1
Airport Location and Setting.....	1-3
History of Airport Development .....	1-6
Aviation Facilities .....	1-7
Runways/Taxiways .....	1-7
Terminal Areas.....	1-8
Future Projected Development .....	1-10
Airspace/Air Traffic Control .....	1-11
Regional Airspace Considerations .....	1-11
Air Traffic Control Facilities and Procedures.....	1-15
Albuquerque Air Route Traffic Control Center (ARTCC).....	1-15
Phoenix Terminal Radar Approach Control (TRACON).....	1-15
Instrument Approaches and Equipment.....	1-16
Chandler Airfield Procedures .....	1-17
Noise Abatement.....	1-17
Preferential Procedures .....	1-18
Noise Awareness .....	1-18
Noise Complaints .....	1-18
Complaint Database.....	1-18

### Chapter Two: Aviation Activity Levels

Time of Day Operations .....	2-3
Aircraft Stage Lengths.....	2-4

### Chapter Three: Noise Fundamentals

Characteristics of Sound.....	3-1
Amplitude and Frequency .....	3-1
Loudness Level.....	3-2
Frequency-Weighted Contours (dBA, dBB, and dBC) .....	3-2
Perceived Noise Level .....	3-2
Propagation of Noise.....	3-5
Duration of Sound .....	3-5
Change in Noise.....	3-6
Masking Effect.....	3-6
Sound Rating Scales.....	3-6
Single Event Metrics .....	3-7
Supplemental Metrics.....	3-7
Cumulative Metrics.....	3-8
Noise Measurements .....	3-10

### Chapter Four: Noise Modeling

Integrated Noise Model.....	4-1
Methodology.....	4-1
INM Input Data .....	4-1
Noise Power Distance Curve Data.....	4-2
Noise Contour Mapping .....	4-2

**Chapter Five: Airport Operational Data**

Existing Operational Activity and Fleet Mix ..... 5-1  
Future Operational Activity and Fleet Mix (2013)..... 5-3  
Runway Utilization..... 5-4  
    Existing Conditions..... 5-4  
    Future Conditions..... 5-7  
Flight Tracks..... 5-7  
    Existing Condition ..... 5-7  
    Future Condition..... 5-10

**Chapter Six: Noise Exposure**

Existing Noise Conditions (2009) ..... 6-1  
Future Noise Conditions (2014) ..... 6-3  
Existing Land Use and Development Patterns..... 6-3  
    Existing Land Use Patterns ..... 6-3  
    Pending Land Development..... 6-5  
    Land Use Planning Policies and Regulations ..... 6-8  
    Regulatory Framework..... 6-8  
    Chandler General Plan..... 6-8  
    Parks and Recreation Planning..... 6-9  
    Area Plans..... 6-10  
    Chandler Air Park Area Plan ..... 6-10  
    Gilbert General Plan..... 6-11  
Zoning ..... 6-11  
    City of Chandler ..... 6-12  
    Town of Gilbert..... 6-13  
    Maricopa County ..... 6-13  
    Subdivision Regulations..... 6-15  
    Building Codes ..... 6-15  
    Capital Improvement Programs ..... 6-15  
Area Socioeconomic Profile ..... 6-16  
    Population ..... 6-16  
    Employment ..... 6-17  
Aircraft Noise Related Land Use Impacts ..... 6-19  
Existing Land Use ..... 6-21  
DNL Contour Relationships to Existing Land Use Maps..... 6-21  
DNL Contour Relationships to Future Land Use Maps ..... 6-21  
Existing Population within DNL Contour Areas ..... 6-24  
Noise Sensitive Sites ..... 6-24

**Chapter Seven: Coordination**

Meetings..... 7-1  
    Study Advisory Committee ..... 7-1  
    Public Open House Meetings..... 7-1  
    Meeting Schedules..... 7-2  
Web Access ..... 7-2  
Noise Hotline..... 7-2

**Chapter Eight: Noise Certification**

Certification ..... 8-1

**Chapter Nine: Aircraft and Airport Operations Noise Abatement and Mitigation Alternatives**

Helicopter Training Activity.....	9-2
Increase Training Pattern Altitude.....	9-2
Climb to Pattern Altitude Before Turning.....	9-6
Change Training Pattern Location .....	9-9
Alternate Training Patterns .....	9-10
Request Training Fleet at Chandler Municipal Use Another Airport .....	9-13
Helicopter Itinerant Operations .....	9-13
Increase Arrival/Departure Corridor Altitude .....	9-14
Keep Helicopter in Designated Corridors.....	9-14
Keep Helicopters at Designated Altitudes.....	9-15
Remain at, or Climb to, Pattern Altitude Before Turning .....	9-16
Fixed Wing Training Activity.....	9-16
Increase Arrival/Departure Corridor Altitude .....	9-16
Increase Training Pattern Altitude.....	9-17
Climb to Pattern Altitude Before Turning.....	9-18
Change the Fixed Wing Training Pattern Location .....	9-27
Request Training Fleet at Chandler Municipal Use Another Airport .....	9-28
Options Required for Review Under FAR Part 150.....	9-31
Implement Curfews .....	9-31
Implement Noise Related Landing Fees.....	9-32
Limit the Number or Type of Operations or Type of Aircraft .....	9-32
Develop Noise Barriers .....	9-33
2014 Noise Contours .....	9-34

**Chapter Ten: Off-Airport Land Use Compatibility Planning**

FAA Initiatives and Limitations in Off-Airport Land Use Planning .....	10-1
Land Use Changes (Corrective Changes) .....	10-2
Property Acquisition .....	10-2
Sound Insulation .....	10-3
Avigation Easement.....	10-3
Planning/Regulatory Changes (Preventative Changes).....	10-4
Overlay Zones and Related Zoning Enforcement.....	10-4
Building Codes.....	10-9

**Chapter Eleven: Noise Program Management**

Noise Compatibility Program Management.....	11-1
Public Involvement.....	11-1
Flight Track Monitoring System.....	11-2
Noise Program Update.....	11-3

**Chapter Twelve: Implementation of Noise Compatibility Program**

Overall Roles and Responsibilities.....	12-1
Existing Noise Abatement Measures to Continue.....	12-2
Implementation Measures for NCP Recommendations .....	12-2
Aircraft and Airport Operations Noise Abatement and Mitigation Alternatives .....	12-3
Off-Airport Land Use Compatibility Planning.....	12-5
Noise Program Management .....	12-6

**Chapter Thirteen: Program Benefits, Costs, Reviews, and Updates**

Benefits ..... 13-1  
    Aircraft Operational Programs Proposed for the Benefit of Existing Residents ..... 13-1  
    Land Use Programs Proposed for the Benefit of Future Residents ..... 13-1  
    Programs Recommended for Continuing Communication with Communities and  
    Airport Users ..... 13-2  
    Programs for the Benefit of Long Term Airport Investment..... 13-2  
Estimated Program Costs and Timing for Implementation..... 13-3  
Reviews and Updates ..... 13-6

## List of Figures

### Chapter One: Background Conditions

Figure 1.1 FAR Part 150 Process .....	1-2
Figure 1.2 National and Regional Location .....	1-4
Figure 1.3 Political Jurisdictions .....	1-5
Figure 1.4 Existing Facilities .....	1-9
Figure 1.5 Recommended Landside Development.....	1-12
Figure 1.5 Recommended Airside Development .....	1-13
Figure 1.7 Regional Airspace Structure .....	1-14

### Chapter Three: Noise Fundamentals

Figure 3.1 Frequency Weighted Curves .....	3-3
Figure 3.2 Examples of Various Sound Environments.....	3-4
Figure 3.3 SEL, LEQ, and DNL Illustrations.....	3-9
Figure 3.4 Noise Measurement Locations .....	3-11
Figure 3.5 Noise Measurement Locations - West.....	3-13
Figure 3.6 Noise Measurement Locations - East.....	3-14
Figure 3.7 Common Sound Comparison.....	3-15

### Chapter Five: Airport Operational Data

Figure 5.1 Existing Single Engine Flight Tracks – West Flow.....	5-8
Figure 5.2 Existing Single Engine Flight Tracks – East Flow.....	5-9
Figure 5.3 Existing Training Pattern Flight Tracks .....	5-11
Figure 5.4 Existing Itinerant Helicopter Flight Tracks.....	5-12

### Chapter Six: Noise Exposure

Figure 6.1 2009 DNL Contours .....	6-2
Figure 6.2 2014 DNL Contours .....	6-4
Figure 6.3 Planned and Pending Land Uses .....	6-6
Figure 6.4 Potential Annexations .....	6-14
Figure 6.5 Projected Change in Population per Square Mile .....	6-18
Figure 6.6 FAR Part 150 Study Guidelines .....	6-20
Figure 6.7 2009 DNL Contours Over Existing Land Use .....	6-22
Figure 6.8 2014 DNL Contours Over Future Land Use.....	6-23
Figure 6.9 Noise Sensitive Uses and the Existing (2009) DNL Contours .....	6-25
Figure 6.10 Noise Sensitive Uses and the Future (2014) DNL Contours .....	6-26

### Chapter Nine: Aircraft and Airport Operations Noise Abatement and Mitigation Alternatives

Figure 9.1 Increase Altitude for Helicopter Training – East Flow .....	9-4
Figure 9.2 Increase Altitude for Helicopter Training – West Flow .....	9-5
Figure 9.3 Helicopter Climb to Training Pattern Altitude Before Turning – East Flow ...	9-7
Figure 9.4 Helicopter Climb to Training Pattern Altitude Before Turning – West Flow ..	9-8
Figure 9.5 Change Helicopter Training Pattern Location to Runway 22L .....	9-11
Figure 9.6 Change Helicopter Training Pattern Location to Runway 4R .....	9-12
Figure 9.7 Increase Altitude for Fixed Wing Training – Runway 4L .....	9-19
Figure 9.8 Increase Altitude for Fixed Wing Training – Runway 4R .....	9-20
Figure 9.9 Increase Altitude for Fixed Wing Training – Runway 22L .....	9-21
Figure 9.10 Increase Altitude for Fixed Wing Training – Runway 22R .....	9-22

Figure 9.11 Fixed Wing Training Aircraft Climb to Pattern Altitude Before Turning – Runway 4L ..... 9-23

Figure 9.12 Fixed Wing Training Aircraft Climb to Pattern Altitude Before Turning – Runway 4R ..... 9-24

Figure 9.13 Fixed Wing Training Aircraft Climb to Pattern Altitude Before Turning – Runway 22L ..... 9-25

Figure 9.14 Fixed Wing Training Aircraft Climb to Pattern Altitude Before Turning – Runway 22R..... 9-26

Figure 9.15 Fixed Wing Training Pattern Location – Runway 4R Versus 4L ..... 9-29

Figure 9.16 Fixed Wing Training Pattern Location – Runway 22L Versus 22R ..... 9-30

Figure 9.17 Revised 2014 Training Flight Tracks ..... 9-35

Figure 9.18 Revised 2014 Noise Contour ..... 9-36

Figure 9.19 Noise Sensitive Uses and the Revised 2014 Noise Contours ..... 9-37

**Chapter Ten: Off-Airport Land Use Compatibility Planning**

Figure 10.1 Existing Airport Noise Overlays ..... 10-5

Figure 10.2 Existing Airport Noise Overlay Zones Compared to 2014 DNL Contours. 10-7

Figure 10.3 Proposed Airport Noise Overlay Zones ..... 10-8

## List of Tables

### Chapter One: Background Conditions

Table 1.1 Existing Facilities.....	1-8
Table 1.2 Complaints by City .....	1-19
Table 1.3 Complaints by Type .....	1-20
Table 1.4 Complaints by Aircraft Type .....	1-21

### Chapter Two: Aviation Activity Levels

Table 2.1 Historical Operations at Chandler Municipal.....	2-2
Table 2.2 Actual and Projected Operations .....	2-2
Table 2.3 Current and Projected Operational Fleet Mix.....	2-3

### Chapter Five: Airport Operational Data

Table 5.1 2008 Annual Operations .....	5-1
Table 5.2 2008 Annual-Average Day Fleet Mix (Itinerant Operations) .....	5-2
Table 5.3 2008 Annual-Average Day Fleet Mix (Local Operations).....	5-3
Table 5.4 2013 Annual Operations .....	5-4
Table 5.5 2013 Annual-Average Day Fleet Mix (Itinerant Operations) .....	5-5
Table 5.6 2013 Annual-Average Day Fleet Mix (Local Operations).....	5-6
Table 5.7 Existing Percentage Runway Utilization.....	5-6
Table 5.8 Future 2013 Percentage Runway Utilization.....	5-7

### Chapter Six: Noise Exposure

Table 6.1 Pending Development by Land Use.....	6-7
Table 6.2 Pending Residential Development with Study Area Boundary .....	6-7
Table 6.3 Historic Regional Population Data .....	6-17
Table 6.4 Historic Civilian Labor Force and Unemployment Rate .....	6-19

### Chapter Thirteen: Program Benefits, Costs, Reviews, and Updates

Table 13.1 Estimated Cost of Noise Compatibility Program .....	13-3
Table 13.2 Timing for Implementation of the Noise Compatibility Program .....	13-5

## Appendices

A. Noise Measurement Observations .....	A-1
B. Aircraft Modeling Substitution .....	B-1
C. Noise Exposure Maps (11x17 Format).....	C-1
D. Operations Verification .....	D-1
E. Advisory Committee Members.....	E-1
F. Meeting Summaries.....	F-1
G. Meeting Announcements.....	G-1
H. Open House Summaries .....	H-1
I. Public Comments .....	I-1
J. Open House Handouts.....	J-1
K. Aviation Acronyms .....	K-1
L. Aviation Glossary .....	L-1
M. Helicopter Only Contours .....	M-1
N. Contour Comparison/Runway Extension.....	N-1
O. Part 150 Studies Contour Comparison.....	O-1
P. Track Altitude Analysis .....	P-1
Q. Chandler Tower and Quantum Helicopters Letter of Agreement .....	Q-1
R. 2028 Operations .....	R-1
S. Contours Beyond 65 DNL for 2009 and 2014.....	S-1
T. Contours Beyond 65 DNL for 2014 With Operational Recommendations .....	T-1
U. Chandler Municipal Airport's Existing Noise Abatement Procedures .....	U-1
V. Public Hearings.....	V-1
W. NEM Acceptance and Notification .....	W-1
X. NEM Checklist .....	X-1
